

# INDIAN MEDICAL ASSOCIATION

“One for All - All for One”.... a cohesive, collective, enhance, communicative approach to break all sectorial walls and bring all clinicians at one platform to help in building a Healthy Nation

## Know About Indian Medical Association by **Dr Sharad Kumar Agarwal** National President

Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1

# Indian Medical Association

Indian Medical Association is the only representative voluntary organization of Doctors of Modern Scientific System of Medicine.

IMA looks after the interest of doctors as well as the well being of the community at large.

The Association was started in 1928 on the occasion of the 5th all India Medical Conference at Calcutta with the avowed objectives:

- Promotion and Advancement of Medical and allied sciences in all their different branches.
- The improvement of public Health and Medical Education in India.
- To maintain the honor and dignity of medical profession.

IMA is a well established organization with it's Headquarters at Delhi and State/Territorial Branches in 34 States and union Territories.

It has over 4,00,000 doctors as its members through over 1750 local branches spread all over the country.

Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1

## Indian Medical Association – A Complimentary State

**Dr Sharad Kumar Agarwal**  
**National President, IMA**

The Constitution of India as a mandate incorporated in its fold through governing provisions stipulates constitutional governance for invocation and manifestation of a 'Welfare State'. The concept and ambit of 'State' is clearly spelt out in Article 12 incorporated in the Constitution of India. The dimension of actualization of Welfare State in terms of guarantee enshrined in the Constitution for every citizen of India without any differentiation, demarcation or segregation is crystalized through attainment and actualization of 18 cardinal developmental parameters. The list of 18 parameters at Sr. No. 1 and 2 catalogues two important mentions of 1) Health and 2) Education, which goes to indicate paramount importance that is attached to actualization of these two vital parameters towards invocation of a meaningful 'Welfare State' contemplated in the Constitution.

## Indian Medical Association – A Complimentary State

**Dr Sharad Kumar Agarwal**  
**National President, IMA**

The constitutional ambit of State explicitly is limited to 'Appropriate Governments', however, operationally the same is reasonably widened in as much as any initiative undertaken by an organization or an institution, which is catering to the very cause which invocation of Welfare State contemplates can be designated may not be statutorily but operationally as a 'Complimentary State'.

Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1

## Indian Medical Association – A Complimentary State

**Dr Sharad Kumar Agarwal**  
**National President, IMA**

It is in this parlance, the nature of pursuit's commensurate with set out objectives that have been consistently undertaken by the Indian Medical Association as a unitary organization of medical professionals with a membership of more than four lakhs under its belt in the domain of extension of health to one and all in terms of making it accessible, available and affordable it turns out to be a 'Complimentary State' in its essence, operation and committed dispensation. The real gauge of Indian Medical Association in terms of its consistent record of precious and valuable services that stand out as benchmarks on the sands of time including operationalization of the various National Health Programmes with productive results is a scripted success story written in golden letters. The contributory role played by Indian Medical Association in an around manner in Corona Pandemic speaks volumes about its commitment to actualization of the constitutional Welfare State enshrined in the Constitution of India. As such, the realistic visualization the Indian Medical Association is realistically justified in its truest depiction as a 'Complimentary State'.

Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1

## Save the Girl Child, Safe Motherhood & Stop Sex Selection Projects

- IMA has been committed to save the Girl Child.
- IMA organized many campaigns to sensitize all sections of society, many rallies, hoardings, posters, workshops, and conferences through “Mission Pink Health Project” for women empowerment and with the aim to **“SAVE THE GILD CHILD”**.
- Sensitized all the 4 Lacs Members across India on **“SAY NO TO “PRE-NATAL SEX DETERMINATION”** the issue of determining procedures and sex selective abortions and also worked with UNFPA.
- Through **“Anemia Free India”** IMA is actively working in villages across the Country.

## IMA against Child Sexual Abuse

The poster features logos for DGF, NIGF, and IMA at the top. It announces a film titled "State-of-Art Examination of Survivor of Sexual Assault & Rape" on Women's Day. The event is a webinar on 08-03-2023 from 5:00 to 6:15 pm. Key speakers include Dr. Sharad Kumar Agarwal (National President IMA) as Chief Guest and Dr. Vandana Bagga (Director, Family Welfare, Government of NCT of Delhi) as Guest of Honour. A row of five smaller portraits at the bottom identifies other participants: Dr. Sharda Jain, Dr. Sangeeta Gupta, Late Dr. Sunita Fotedar, Dr. Gauravh Agarwal, and Dr. Anita Rajoria.

- Child sexual abuse is a significant public health problem and an adverse childhood experience.
- IMA along with its Women Doctors and medico legal experts prepared a comprehensive examination programme of a victim child sexual abuse/ rape with the co-orporation of Mother and Child Development and also made a video film on proper examination process to help the medical officer for getting proper medicolegal evidence against the offender to help in providing justice to the victim on 8<sup>th</sup> March on the occasion of Women Doctors Day. IMA in association with DGF/NIGF launched a training module of examination in the form of a video.
- More than 50 Workshops and TOT programs were conducted in different medical colleges since 2015.
- IMA, UNICEF, MWCD Government to India came together with a standardize protocol for medical examination and evidence collection. **Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1**

- IMA played a pivotal role in eliminating Polio in 2014 by shouldering responsibility of regular campaigning for polio vaccination by rally /poster /walkathon and door to door programs by our members & branches.

Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1

## IMA & HIV control with GOI

IMA-MSN Trivandrum Medical college

- In late 90s, when HIV and AIDs was a big challenge for the society as well as the medical fraternity mainly because of limited knowledge of the disease and the treatment and fear of spread of HIV and discrimination. That time, IMA took the initiative since 1993 with international organization and Government of India to sensitize and trained our doctors on the treatment protocol.
- IMA played a important role in social awareness for handing the HIV Case.
- IMA with the help of BILL Clinton foundation took a HIV sanitization program to the medical community and covered nearly 4 Lacs doctors and healthcare workers.
- IMA was a partner in HIV control with GOI and other international organizations since 1993.
- Our partnership with NACO regarding early diagnosis, prevention of mother to child transmission and other projects have significantly helped the country in lowering the incidence of HIV.

Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1

# IMA National Initiatives

- **IMA National Initiative for Safe Sound:** IMA organized several pilot projects on Safe Sound initiative by way of celebrating International Noise Awareness Day and No Horn Day.
- **Organ Donation:** Indian Medical Association has active organ donation committees across the country at all states and local branches. IMA through these committees holds massive awareness initiatives, rallies, seminars. IMA is proactively encouraging people for filling the pledge cards
- **Road Safety & Awareness:** IMA has an active road safety program which encompasses training to public on road safety measures, campaigns, training on first aid, safe transport and basic life support, training to medical personnel on trauma care etc.

# INDIAN MEDICAL ASSOCIATION CONCERN

Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1

## Violence Against Healthcare Workers

- The World Health Organization has defined workplace violence in the health sector as incidents where staff is abused, threatened, or assaulted.
- 75 per cent of doctors in India have faced violence at some point of time in their life,
- Although 25 states have law on prevention of violence against healthcare establishments and healthcare professionals, they are ineffective and does not serve the purpose of deterrence.
- Absence of special central law is one of the reasons
- A draft law was published in 2019, but no further action was taken . Government partially mitigated the situation during the pandemic by amending Epidemic diseases Act 1897. Govt by ordinance made a law on violence during pandemic but is reluctant to extend in day to day practice. Hospitals should be declared as safe zone.
- **A CENTRAL LAW AGAINST VIOLENCE ON DOCTORS AND HOSPITALS COULD ONLY A BEGINNING**

# Integrated Medicine

- Integrated medicine is a poorly thought policy. Concept is good but execution needs planning.
- Implementing at Under graduation level is detrimental adulteration, India will be deprived of experts in any system of medicine. We deserve the purest form and advocate for the purity of all systems of Medicine.
- By 2030 all the 660 medical colleges will be churning out 1 lakh plus hybrid MBBS doctors of mixed origin.
- IMA proposes that all medical systems should produce their experts by studying their respective systems in their pure format and once they become experts then we can adopt an integrative approach by establishing hospitals providing integrative health facilities.
- All the emergency, critical care, surgical, super specialty treatments are done by Allopathic and for the life style management and for some chronic diseases along with allopathic treatment, alternate medicine systems like AYUSH are being used.

Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1

## IMA Volunteer to the Government

**Dr Sharad Kumar Agarwal**  
**National President, IMA**

- Indian Medical Association working for decades to implement Government policies and programmes and working as a complimentary state.
- IMA can play an important role in planning, implementation, evaluation of various Government healthcare programmes to the last mile.
- IMA offer to deliver health and social care, health research and public health through its 1750 Branches and 4 Lacs members.
- The Government should involve IMA in inclusive engagement in all the healthcare policies and ambition making which is essential to address the needs of people of the Country.
- Involving IMA in National Health Policies and plans will help Government also to have a unbiased expert advise for maximum governance with optimum resource utilization to reach to the list people sitting in the row. Presentation by Dr. Sharad Agarwal, National President – Ver : 1.1
