PRIORITY IN RURAL HEALTHCARE & DIGNITY OF PROFESSION

ACTIVITIES OF NATIONAL PRESIDENT & HONORARY SECRETARY GENERAL

From the desk of National President, IMA

Dear Friends,

The month of September started with a happy note with the celebration of Teachers' Day. IMA HQs celebrated this day as Medical Teachers' Day felicitating those members who have made significant contributions in medical education and public health. 46 doctors were bestowed with the title of "IMA Professor". The glittering event was inaugurated by the Chief Guest Dr. Mansukh Mandaviya, Hon'ble Minister of Health & Family Welfare, Gol, in presence of Shri Pashupati Kumar Paras, Hon'ble Minister of Food Processing Industries, Gol and Mrs. Meenakshi Lekhi, Hon'ble Minister of State of External Affairs, Gol who were the Guest of Honour. For the first time in the last two decades the Union Health Minister visited the event organized by Indian Medical Association HQs at IMA House, New Delhi. This speaks of the inclination of the Govt. towards the views of the Indian Medical Association. I take this opportunity to thank all my colleagues who were responsible for making this event a great success.

Medical profession is service oriented and it will continue to remain so. Unfortunately, some of the stringent regulations imposed on us are creating problems in delivery of healthcare services. For this reason, we have been constantly approaching the Government to relook into some of the regulations existing at national level as well as State level. Many times, such representations were considered as confrontation with the Government. The problems can not be solved with confrontation. I personally feel that most of the problems can be solved with political persuasion. For this reason, I have kept political liasoning as the main priority in solving the problems affecting our professionals. I am happy to share that Government is seriously looking into our demands like Central law against violence in healthcare establishment and doctors, Consumer Protection Act (CPA), Death due to medical negligence, Mixopathy, CHS doctors issue regarding enhancement of age of retirement, Draft Regulations of licence to practice in India issued by National Medical Commission, Indian Medical Services (IMS) and GST Exemption for Healthcare Services and we are hopeful that some amicable solution will be reached sooner.

Recently, the National Medical Commission has come out with another proposed draft for amendments in establishments of Medical College Regulations 1999 which were put on public domain on 19th September 2022. IMA has already studied this Draft Regulations and sent its recommendations to the NMC for their consideration.

The Central Working Committee and Central Council meeting are being held together after a long time at Prayagraj (Allahabad), Uttar Pradesh from December 26-28, 2022. I request all Central Council members to participate in the meeting and NATCON-2022 in large numbers and avail the opportunity of visiting twin holy cities of Prayagraj and Varanasi. My best wishes for all the members of the incoming festivals Dussehra and Diwali.

Jai Hind! Jai IMA!!
